A. Step Ladder

B. Extension Ladder

C. Work Platform

D. Stairway Work Platform

## INSTRUCTIONS

- Insert the stabilisers into the end of the side rails
- Secure the bolts and nuts

### Ladder Assembly

#### Step Ladder Assembly Ladder

- Can safely be assembled by a single person
- Take the two straight ladder sections and connect securely with the fixed hooks
- Attach support arms to each side

#### Extension Ladder Assembly

- Can safely be assembled by one person only
- Insert first ladder frame into second ladder frame using the fixed hooks

#### Work Platform Assembly

- Three people required for safe assembly
- Two people should hold ladder frame in the correct position
- One person places platform on the rungs (must be horizontal)
- Fix the support arms to either side

#### Stairway Work Platform

- Three people are required to guarantee a safe assembly
- Two people should hold ladder frames in correct position
- One person places platform in correct place
- Support arms must be fixed on either side
- **Note:** Choose different rung on each ladder frame to even platform
- Platform must always be horizontal

---

## CARE AND MAINTENANCE

- Clean Scaffold ladder after using on ground or in dirty area
- If washed with water, lubricate after drying
- Never use ladder with missing, worn or damaged parts
- Inspect before each use
