

Telescopic Ladder

User Guide

DESIGNATION:

Telescopic Ladder 5.6m Double-sided GDA-DLT709B
Telescopic Ladder 5.0m Double-sided GDA-DLT708B
Telescopic Ladder 4.4m Double-sided GDA-DLT707B
Telescopic Ladder 3.8m Double-sided GDA-DLT706B
Telescopic Ladder 3.2m Double-sided GDA-DLT705B

Telescopic Ladder 4.1m GDA-DLT213B
Telescopic Ladder 3.8m GDA-DLT212B
Telescopic Ladder 3.2m GDA-DLT210B
Telescopic Ladder 2.9m GDA-DLT209B
Telescopic Ladder 2.6m GDA-DLT208B

Instructions

Please read this manual carefully before using your telescopic ladder.

PREPERATION

1. Ensure that you are fit enough to use the ladder. Certain medical conditions or medication, alcohol or drug abuse could make using the ladder unsafe.
2. When transporting ladders on roof bars or in a truck, ensure, they are secured to prevent damage
3. Inspect the ladder after delivery; make sure the ladder is in order and safe to use
4. Inspect ladder before every use
5. Never use a damaged ladder
6. Always make sure the ladder is clean before using it. Wipe off all wet paint, mud, snow, oil etc.
7. Carry out a risk assessment

POSITIONING AND CORRECTING THE LADDER

1. Inclination should not exceed a 75-degree angle
2. Position ladder on even and unmovable base. Never on a slippery surface.
3. Lean ladder only against flat, robust, and tall objects. If necessary, tie to object for extra stability
4. Identify any electrical risks in the work area, such as overhead lines or other exposed electrical equipment
5. Avoid any collision. Stay clear from doors and windows. Never block a fire exit with your ladder. Be careful about cars and other vehicles when using ladders outdoors
6. Only stand the ladder on its feet never rungs or other parts

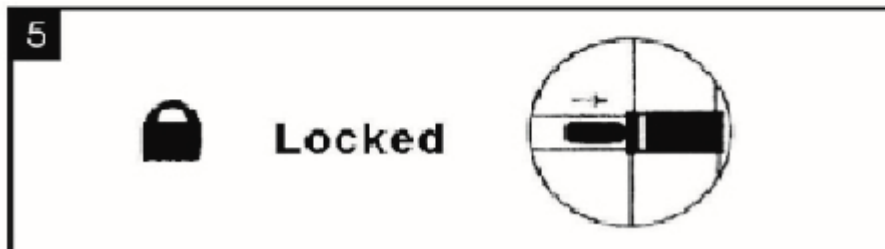

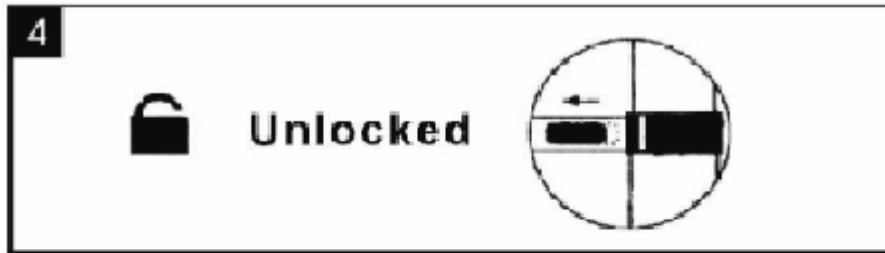

USING THE LADDER

1. Never exceed maximum load. Always bear additional weight of tools and equipment in mind
2. Do not over reach. Shoulders should always stay inside the stiles and both feet on the same rung.
3. Do not step off a leaning ladder at a higher level without additional security, such as tying off or use of a suitable stability device
4. Do not stand on top 3 steps of a leaning ladder
5. Use ladders for light use only. Use only for short duration
6. Do not use ladder outside in severe weather conditions (e.g. wind)
7. Do not let children play with ladder unattended
8. Face ladder when climbing and ascending
9. Never use ladder as a bridge
10. Wear appropriate footwear when on ladder
11. Avoid excessive side loading (e.g. drilling brick and concrete)
12. Take regular breaks. Tiredness can be a severe risk
13. Leaning ladders used for access to a higher level should be extended at least 1m above the landing point
14. Equipment carried while using a ladder should be light and easy to handle.

OPENING THE LADDER

Automatic locking: every rung of your ladder has two locking pins on either side.

- Unlocked: There is a gap between the button and the Span
- Locked position: The buttons are directly on the leg
